

Inclusion Winnipeg is celebrating our 68th anniversary in 2026. We prioritize creating a safe, welcoming, and inclusive space where participants feel valued, regardless of gender, ability, sexual orientation, ethnicity, or socio-economic background. As an organization we learn from people with intellectual disabilities whose achievements reflect lives lived to the fullest – from children and youth experiencing success at school, to young adults becoming involved in post-secondary studies and securing real employment for real pay. Inclusion Winnipeg's mission is to enhance the lives and status of people living with an intellectual disability, support families, and advance their human rights and inclusion in the community.

Our vision is an inclusive Winnipeg where people with intellectual disabilities and their families are valued equally and able to participate fully in all aspects of society.

The 5 ways we carry out our work:

- Family engagement and individual advocacy.
- Social justice advocacy at the civic, provincial, and federal levels.
- Research on effective public policy and promising developments in the attainment of human rights.
- Training and professional development for service providers and community leaders.
- Mobilizing community action to protect and advance human rights for all people.

Inclusion Winnipeg works with the community of Winnipeg using a multi-pronged approach to ensure community members with lived experience have equal access to advocacy as community members throughout Winnipeg.
